- **Master Contractor**

- Elevate-licensed contractors annually earn Master Contractor status by accumulating Quality Points for achieving exceptional inspection ratings on Elevate Red Shield™ warranted roofing system installations. High-quality workmanship and a commitment to long-term roofing system performance are the attributes of a Elevate Master Contractor. This award recognizes the owners of our top achieving contractor firms in North America and Latin America who meet our criteria for determining the best of the best.

- **Inner Circle of Quality**

- The Elevate Inner Circle of Quality Award is one of the most prestigious honors in the commercial roofing industry. It is awarded to Master Contractors who install:
 - Minimum of eight warranted roofs in each of the last 5 years
 - Maintain at least 2 million Sq Ft under warranty
 - Achie and annual QIR of 1.0 or less
 - Achieve Master Contractor Status
- Contractors who earn the Inner Circle of Quality Award are recognized at Elevate’s annual Master Contractor Event.

- **Platinum Council**

- We wouldn’t be the company we are today without reliable, dependable contractors who go the extra mile to ensure quality roof installations each day. In an effort to recognize those contractors who significantly exceed the minimum points needed to qualify for the Master Contractor Award and consistently demonstrate outstanding performance over an extended period of time, we award Platinum

Council status. Our Platinum Council is designed to recognize Master Contractors who regularly earn the highest Quality Points for a combined two-year period, placing them among the top Master Contractors for that time.
